Mr. Klett,

We would like to express our gratitude for your generous support of €8.780,64 to Cyprus League Against Rheumatism. Financial support from Eular led us to fulfil our goal to create the "Patient Expert" program that without it would not be feasible.

We are grateful for your contribution, which helps us to continue the program. Through the education of patient and health professionals, people with RMDs will be able to have early diagnosis, access to the treatment and consequently improvement of the quality of their life.

Thank you again,

Sincerely,

Marios Kouloumas
President
