

PAEDIATRIC MUSCULOSKELETAL ULTRASOUND COURSE

April 26-28, 2018 – Antalya, TURKEY

Scientific Organisers

Ender Terzioglu, Esperanza Naredo

Faculty

Paz Collado, Spain
Sandrine Jousse-Joulin, France
Silvia Magni-Manzoni, Italy
Clara Malattia, Italy
Carlo Martinoli, Italy
Ingrid Möller, Spain
Ana Rodriguez, Spain
Jelena Vojinovic, Serbia
Esperanza Naredo, Spain
Ender Terzioglu, Turkey
Wolfgang Schmidt, Germany

Date

April 26-28, 2018

Venue

Cornelia Deluxe Hotel Belek, Antalya, Turkey

Registration & Accommodation

Course fee including course registration, hotel for 3 nights & meals: 950 €

Reserve your participation by email: usgantalya@gmail.com

Number of participants: 60

Language: English

Educational Objectives

- Identify the spectrum of musculoskeletal pathology with ultrasound that commonly appears in rheumatological practice
- Know physics and application of Doppler sonography for musculoskeletal ultrasound
- Ability to perform sonographic-guided articular and periarticular injections.

This course has been scientifically endorsed by

Scientific Secretariat

Prof. Dr. Ender Terzioglu

Akdeniz University Medical School Department of Internal Medicine Division of Rheumatology and Clinical Immunology-Allergy, 07050 Antalya, Turkey

Email: usgantalya@gmail.com

Scientific Content

The course is a combination of lectures and hands-on scanning of models and/or patients with paediatric rheumatic diseases in small groups with experienced tutors. The course has been designed following the recommendations for the content and conduct of EULAR musculoskeletal ultrasound courses (Naredo E, Bijlsma JWJ, et al. Ann Rheum Dis 2008; 67:1017-22).

Learning Objectives

To know the principles and applications of MSUS in children

To learn ultrasound machine handling, setting optimization and artefacts

To identify the sonographic pattern of musculoskeletal tissues in children

To learn normal musculoskeletal sonoanatomy in children

To learn the standardised ultrasound assessment of each musculoskeletal anatomic region in children

To detect and identify basic pathological MSUS findings in children

To learn ultrasound-guided injections

To document images and to report ultrasound findings

Course certification

A certificate of attendance will be supplied to all participants.

Course evaluation

You will be kindly asked to evaluate the courses with respect to educational content, course organisation and venue. It is mandatory to fill out the online survey.

SCIENTIFIC PROGRAMME

April 26th 2018

Time	Session	Speaker
12.00-14.00	Registration	
14.00-14.15	Welcome. Objectives and content of the course.	Ender Terzioglu
14.45-15.15	Basic grey-scale and Doppler principles and artefacts of musculoskeletal ultrasound (MSUS)	Esperanza Naredo
15.15-15.50	Role of MSUS in paediatric clinical practice	Paz Collado
15.50-16.30	Anatomic components and ultrasound pattern of musculoskeletal tissues in children	Ingrid Möller
16.30-17.00	Coffee break	
17.00-17.30	Basic pathological MSUS findings in children	Jelena Voijinovic
17.30-19.00	Workshop (models). Supervised handling of the probe and optimisation of settings. US appearance of musculoskeletal tissues and structures in children	All Faculty
19.30	Dinner	

April 27th 2018

Time	Session	Speaker
9.00-9.30	Sonoanatomy and standardised scanning of the child's knee. Basic pathological findings	Sandrine Jousse-Joulin
9.30-10.00	Sonoanatomy and standardised scanning of the child's ankle and foot. Basic pathological findings	Paz Collado
10.00-10.30	Sonoanatomy and standardised scanning of the child's hip. Basic pathological findings	Carlo Martinoli
10.30-11.00	Coffee break	
11.00-13.00	Workshop. Supervised standardised scanning of the hip, knee, ankle and foot (models). Basic pathological findings (patients and video live demo)	All Faculty
13.00-14.30	Lunch	
14.30-15.00	Sonoanatomy and standardised scanning of the child's shoulder. Basic pathological findings	Ana Rodríguez
15.00-15.30	Sonoanatomy and standardised scanning of the child's elbow. Basic pathological findings	Clara Malattia
15.30-16.00	Sonoanatomy and standardised scanning of the child's wrist and hand. Basic pathological findings	Silvia Magni-Manzoni
16.00-16.30	Coffee break	
16.30-18.30	Workshop. Supervised standardised scanning of the shoulder, elbow, wrist and hand (models). Basic pathological findings (patients and video live demo)	All Faculty
19.30	Dinner	

April 28th 2018

Time	Session	Speaker
9.00-9.30	Report of US findings	Wolfgang Schmidt,
9.30-10.15	US-guided periarticular and intra-articular injections. Video live demo	Jelena Voijinovic
10.15-10.30	Coffee break	
10.30-12.30	Workshop. MSK US-guided injections (phantoms)	All Faculty
12.30-12.45	Closing Remarks	Ender Terzioglu
