# EULAR PARE Working Group

*Patient Research Partners*

## Programme / Project Description / Aims and Objectives

Patient involvement in research is increasing. EULAR has supported the integration of the patient perspective in its vision, procedures and practices for a long time. The PRP working group continues to develop EULAR’s network of patient research partners, and establishes it as a leading centre for the inclusion of patients with RMDs in scientific initiatives.

## Role of Working Group Members

- Contribute ideas for the functioning of the PRP network (scientific, educational, logistic)
- Contribute to review of the PRP on-line course (to be launched in September 2022)
- Review documents produced by the PRP WG (newsletters, flyers, guides, etc.)
- Read proposals and comment on progress reports (every two years so far)

## Project Timeline / Detailed Schedule (if applicable)

- There is no set timeline for the PRP WG group, as it serves as a think tank for the project.
- New project application for 2022/2023 will be submitted to EULAR Council in March 2022
- Each year there are usually 2 strategic on-line meetings, one in spring and one in November/early December

## Required Skills for new Working Group member

**Essential skills:** Personal experience as a PRP

**Desirable skills:** Interest in patient involvement in research

## Additional Comments

The Working Group needs 3 additional members. The current Working Group members come from Cyprus, Portugal, Netherlands, Romania and UK.
